For the truly captivating option of adding contoured Photo Relief images to your plaque, look no further than Engraved Metal Plaques.

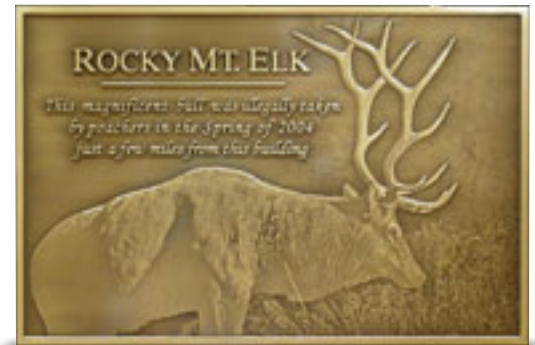

Engraved Metal Plaques

with Photo Relief

Original Photo Composite

We could not have done this without the help of your designers. Our original idea was to have an inscription with silhouettes of the aircraft, but your staff transformed this idea into professional quality memorials for our crews. The plaques are absolutely beautiful, and are much nicer than we expected. Your investment in this technology was well worth it.

PLAQUE	SIZE - w x h	MATERIAL FINISH	BACKGROUND FINISH	BORDER STYLE	ADDITIONAL INFORMATION
DAVID GRUPE	22" x 12"	Natural Satin Bronze	Color: Oxide Texture: Photo Relief	Double Line	From a photograph taken during a golf outing, the Photo Relief engraving technique permanently captured this scene in a most unique way.
ROCKY MT. ELK	18" x 12"	Natural Satin Bronze	Color: Oxide Texture: Photo Relief	Single Line	Engraved Metal plaques are not used only for memorials. This plaque is a unique way to raise public awareness of poaching that threatens area wildlife.
FOREST FIREFIGHTER MEMORIALS	10" x 8"	Natural Satin Bronze	Color: Oxide Texture: Photo Relief	Single Line Bevel	These two plaques are part of a series of memorials to honor fallen firefighters and will be mounted at each crash site. Bronze was used for durability.

Because almost every single feature of a photograph is duplicated in an Engraved Bronze plaque, your story takes on a whole new dimension and is told in much greater detail than a text-only inscription could possibly convey.

PLAQUE	SIZE - w x h	MATERIAL FINISH	BACKGROUND FINISH	BORDER STYLE	ADDITIONAL INFORMATION
ERIC CRANE	20" x 26"	Natural Satin Bronze	Color: Oxide Texture: Grain	Single Line	The portrait on this plaque is framed within the plaque instead of being used as the background. The recessed area around the photo is our smooth background, which has a subtle directional grain
RICHARD A. ROCK AMPHITHEATER	20" x 12"	Natural Satin Aluminum	Color: Oxide Texture: Photo Relief	Double Line	This plaque is aluminum, which is much lighter in weight, silver/pewter in color, and lower in cost. Aluminum plaques can be tinted gold if desired.
MARK S. MALONE	22" x 12"	Natural Satin Bronze	Color: Oxide Texture: Photo Relief	Double Line	Three separate photographs were used to create the photo relief image on this plaque. It also shows both raised and recessed lettering.

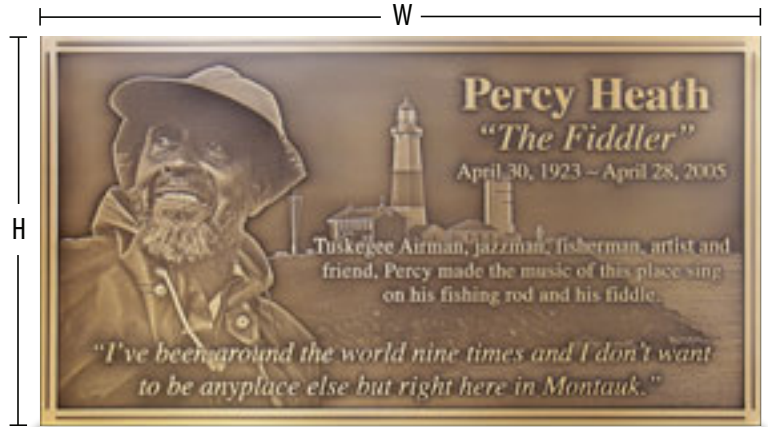

We can be very flexible with the images to be used on Engraved Metal plaques, but the quality of a photo relief image is dependant upon the quality of the original photograph. Engraved Metal plaques always have a flat back, are 1/4" thick, and are usually mounted with concealed studs.
